ENGLISH

Technical skills

** Frontend:**

- HTML5, CSS3, JavaScript (ES6+),
Bootstrap, React.js

** Backend:**

- Express.js

** Version Control & Tools:**

- GitHub, VS code

** Database (Basic Knowledge):**

- PostgreSQL

- Device and Phone Repair

Soft skills

Introducing idea

Education & Certifications

Bac +2 in Arabic Law (Droit Arabe)

Certificate in Web 2.0 Technologies

Certificate in Flask Framework

(Hands-on experience building web applications using Python's Flask framework, including routing, templates, and REST APIs)

Auto Formation

Basic knowledge of **HTML** and **CSS** for web design

Fundamental **JavaScript** programming skills

Introductory experience with **React.js** for building user interfaces

Bootcamp at Geeks.Institute

Intensive training program covering web development fundamentals, including HTML, CSS, JavaScript, React, Python, TypeScript and database, PostgreSQL and practical projects to build real-world skills.

Participated in the conception of small-scale projects during my web development training. Gained fundamental knowledge in functional analysis, page structuring with HTML/CSS, and programming logic using JavaScript.

Introduced to user interface design with React.js and API creation using Express.js.

Work experience

- Participated in an intensive web development bootcamp focused on modern frontend and backend technologies.
- Built responsive user interfaces using HTML, CSS, and JavaScript.
- Developed small to medium-sized projects using React.js, Redux, and Bootstrap.
- Gained practical experience in backend development with Node.js and Express.js. and PostgreSQL.
- Learned how to manage code versions using Git and collaborated via GitHub.
- Completed and published a functional web application as part of the final bootcamp project.

Apprenticeship

- Completed a hands-on apprenticeship in full-stack web development.
- Built interactive web applications using HTML, CSS, JavaScript, and React.js.
- Gained experience in backend development using Node.js, Express.js, and MongoDB/PostgreSQL.
- Applied Git and GitHub for version control and project collaboration.
- Developed a capstone project and published it on GitHub as part of the final evaluation.

Interests

Web development and exploring new programming languages

Mobile phone and electronic device repair

Learning modern JavaScript frameworks like React

Reading about the latest trends and technologies in the tech field
